Expected Family Contribution: 832

Your Expected Family Contribution (EFC) is shown here. If it is blank, please look below (under "What You Must Do Now" for corrections you need to make.

Based on the information we have on record for you, your Expected Family Contribution (EFC) is 832. You may be eligible to receive a Federal Pell Grant and other federal student aid. Your school will use your EFC to determine your financial aid eligibility for federal grants, loans, and work-study funds, and possible funding from your state and school.

There is a limit to the total amount of Federal Pell Grants that a student may receive, which is the equivalent of six school years. Based on information reported to the *National Student Loan Data System* (NSLDS[®]) database by the schools you have attended, you have received Federal Pell Grants for the equivalent of between one-half and one school year.

Based on your EFC of 832, you may be eligible to receive a Federal Pell Grant of up to \$5,645 for the 2022–23 school year provided you have not met or exceeded the lifetime limit established for the Federal Pell Grant program.

Financial Aid History

The information below is the total amount of student loans that you owe. These loans are administered by the U.S. Department of Education (ED). You should confirm that these loan totals are correct. You can [view details on the individual loans](#) that make up these totals on your [Aid Summary](#). If you feel that the amounts listed on this page are incorrect, or you have other questions related to a loan, you should contact the loan servicer indicated on your Aid Summary. You can obtain general information about each of the types of loans that are listed below by visiting [StudentAid.gov](#).

Note that the "Subsidized" and "Unsubsidized" amounts include the appropriate portions of any Consolidation Loans you may have. If there is an amount listed for "Unallocated Consolidation Loans" it is because we could not determine whether those balances were subsidized or unsubsidized.

Remember, you are responsible for repaying all of the amounts that you borrow plus interest. As a general rule, with an assumed interest rate of 5%, the monthly payment amount over a ten-year repayment period would be approximately \$10.61 for every \$1,000 that you borrowed. Your actual repayment amount will depend upon how much you borrow, the interest rate when you enter repayment, and how long your repayment term is.
